

Rodny Ace M. Apostol

apostolrodny0307@gmail.com ♦ 0920-226-7103 ♦ Iba, Zambales

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in software development, process automation, and IT support gained through internship and project work. Adept at analyzing complex workflows, debugging software, and translating user requirements into secure, user-friendly applications. Passionate about leveraging strong computer science fundamentals to solve real-world problems and eager to contribute to a collaborative, innovation-driven engineering team.

WORK EXPERIENCE

Zambales I Electric Cooperative, Inc.

January 2026 - May 2026

Programmer/Technical Support Intern

Palauig, Zambales, Philippines

- **Software Development & Automation:** Developed internal web applications using Python and Streamlit, significantly enhancing workflow efficiency and centralizing document access across teams.
- **Web Scraping Solutions:** Engineered automated web scraping algorithms to seamlessly harvest and catalog regulatory documents from the ERC and NEA, eliminating manual data collection.
- **IT Infrastructure Support:** Configured and provisioned employee workstations, managed software installations, and delivered responsive Tier-1 technical support to optimize enterprise uptime.

PROJECTS

Hyperledger Fabric with RAFT Consensus for SSG Electronic Voting System

November 2025

Software Developer

- Engineered a secure, tamper-resistant blockchain voting application utilizing Hyperledger Fabric and RAFT Consensus.
- Implemented robust voter authentication, role-based access control (RBAC), and automated vote validation mechanisms to ensure high election integrity.
- Designed an intuitive, responsive web interface that simplified administrative oversight and streamlined the voting experience for end users.

Smart Barangay Management System

May 2025

Software Developer

- Designed and built a localized management platform to digitize resident profiling, document issuance (e.g., clearances, permits), and incident reporting using PHP and Bootstrap 5 platform.
- Integrated DataTables and Summernote to streamline record tracking and certificate generation.

ERC & NEA Issuance Management System

March 2026

Software Developer

- Built a Python, Streamlit, and Selenium application to automate regulatory document harvesting and global search.
- Implemented multi-tier filtering and process automation using a JSON-based database for fast document retrieval.

EDUCATION

President Ramon Magsaysay State University

2022 - 2026

Bachelor of Science in Computer Science

Iba, Zambales, Philippines

SKILLS

- **Skills:** PHP; Python; Java; JavaScript; SQL; HTML; CSS; Streamlit; Selenium; MongoDB; GitHub; Git
